SPECIAL INSPECTOR REGISTRATION PROGRAM OVERVIEW

BACKGROUND

Chapter 17 of the California Building Code sets forth the provisions for special inspections as well as the requirements for special inspectors.

To ensure all special inspectors performing inspections and associated reviews of particular types of construction are fully qualified to perform such inspections, the City of Shafter has implemented the following program for registering special inspectors in each specialty area for which they intend to perform inspections.

PROGRAM OUTLINE

In order to work as a special inspector on any project within the City of Shafter, it is necessary to be registered by Building & Safety. The following type of work require special inspection (CBC 1705):

- Structural Steel & Bolting
- Structural Steel Welding
- Concrete Construction
- Prestressed Concrete
- Shotcrete
- Masonry Construction
- Wood (High Load Diaphragm & Seismic)
- Soils
- Pile or Pier Foundations
- Sprayed Fire-Resistant Materials
- Mastic & Intumescent Fire-Resistant Coatings
- EIFS (Ext. Insulation & Finish Systems)
- Smoke Control Systems
- Architectural Components for Buildings >30 Feet in Height
- Mechanical & Electrical Components (Installation & Anchorage)
- Seismic Isolation Systems
- Post Installed Anchors (Drilled-in Anchors)

REGISTRATION REQUIREMENTS

To register as a special inspector in the City of Shafter, you shall comply with the following:

1. Complete an application for registration and pay appropriate fees.
2. Demonstrate competency in categories identified on the application (may include passage of an oral and/or written exam administered by the City Building Official).
3. Provide current certification(s) from an approved code organization Along with a resume detailing experience. For more information regarding the certification(s) required for each category, please contact Building & Safety at 661-746-5002.
4. Agree to abide by the terms of the City's "Zero Tolerance Policy" requirements.
5. Agree to have your name and phone number printed on the City's list of registered special inspectors, which is located on the City's website and is available at the public counter

VALIDITY AND RENEWAL

Upon completion of the above-mentioned steps, a City identification card will be issued. The identification card will indicate the area(s) in which the special inspector is approved to perform inspections so long as the individual certifications remain active. It is the responsibility of the special inspector to maintain those individual certifications up to date. Should a certification expire, the special inspector is prohibited from conducting inspections and submitting reports for the corresponding category.

The City identification card expires on June 30 of every year regardless of the date of issuance. The special inspector is responsible for renewing the City identification card before the expiration date. An annual fee will be required to keep the card active. All fees are non-refundable.

SPECIAL INSPECTOR PERFORMANCE EXPECTATIONS

The special inspector shall:

- Abide by the rules and prescribed procedures established by the City
- Notify the City prior to conducting special inspections
- Perform no inspection(s) on jobs not permitted by the City or on jobs where City approved plans are not available on-site
- Always maintain an exceptional level of professionalism while working in the City
- Become completely familiar with the City approved plans and construction documents prior to inspection in order to fully understand the specific special inspection requirements and procedures for the project
- Notify the contractor and subcontractor upon arrival for every inspection
- Observe all work identified on the Statement of Special Inspections in the approved plans and verify that work requiring special inspection is completed in accordance with approved plans, California Building Code, City of Shafter ordinances, and with corresponding material references identified in the building code
- Identify all nonconforming work and notify the engineer and/or architect of record and building official in a timely manner of the nonconformance
- Complete daily reports with required inspection results and City required project data, and submit reports to the general contractor and to Building & Safety
- Each individual special inspector or each company providing multiple special inspectors for a project shall submit a final inspection report to the building inspector certifying compliance upon completion of all applicable work as identified in the approved construction documents
- See requirements and guidelines for special inspectors, contractors, subcontractors, and owners that outline specific responsibilities for each party involved in the construction process

REQUIREMENTS AND QUALIFICATIONS FOR SPECIAL INSPECTORS

REQUIREMENTS AND QUALIFICATIONS

1. Special inspectors shall be hired by the owner of the project or registered design professional in responsible charge, acting as the owner's agent. Contractors and/or subcontractors are prohibited from hiring special inspectors.
2. The special inspector shall be a qualified person who demonstrates competence, to the satisfaction of the building official, for inspection of particular types of construction or operations requiring special inspection. Special inspectors shall be registered in the City of Shafter for the specific category being inspected prior to conducting any special inspection. The responsibility of the special inspector is to maintain up to date all individual certifications used to register with the City of Shafter.
3. Special inspectors shall maintain his/her pertinent special inspection knowledge and skills up to date with the current field practices and code requirements.
4. Special inspectors shall avoid conflict of interest situations with the contractor or anyone else performing work requiring a special inspection.
5. Special inspectors shall observe all work identified on the Statement of Special Inspections in the approved plans.
6. Special inspectors shall verify that the work is performed in accordance with the approved plans, California Building Code, City of Shafter ordinances, and with corresponding material references identified in the building code.
7. Special inspections shall include verification of the proper fit-up of structural elements including dimensions, clearances, and tolerances as required by the plans, building code, and referenced documents.
8. Special inspectors shall be completely familiar with the City approved plans and construction documents prior to inspection in order to fully understand the specific inspection requirements and procedures for the project.

INSPECTION REPORTS

9. The special inspector shall furnish inspection reports to the building official and to the registered design professional in responsible charge. Reports shall indicate that work inspected was completed in conformance to approved construction documents. Discrepancies shall be brought to the immediate attention of the contractor for correction. If discrepancies are not corrected, they shall be brought to the attention of the building official and to the registered design professional in responsible charge prior to the completion of that phase of the work. Discrepancies shall be corrected, and the special inspector shall conduct re-inspection(s) of the

Initial _____

work to verify that it has been done in conformance to the proved plans, building codes, referenced documents, as well as any approved revisions.

10. The special inspector is required to prepare a daily report for each type of inspection conducted. A copy of the daily report shall be made available to the contractor and to the city building inspector on the day of inspection and emailed to SpecialInspections@Shafter.com. See below for the information required on each Special Inspection Daily Report.
11. Information required on the **Special Inspection Daily Report** includes:
 - a. Company name for which the special inspector is employed.
 - b. Name of special inspector conducting the inspection.
 - c. City of Shafter registration number.
 - d. Company address, phone number, and email address.
 - e. Inspector's cell phone number.
 - f. Time and date of inspection(s).
 - g. Project address.
 - h. Project building permit number.
 - i. Name of contractor and/or subcontractor.
 - j. Type of inspection(s).
 - k. Location of where inspection(s) is/are conducted shall be specific and relate to approved plans.
 - l. A detailed description of work inspected. Include the referencing of standards for the required procedures. This shall include codes, plans, ICC ESR's, manufactures specifications, etc.
 - m. Clear statement that the inspected work either "is" or "is not" in compliance with approved plans and codes, including any discrepancies or deviations from the approved plans.
 - n. List of test specimens obtained (grout, concrete, CMU, weld Coupons, rebar, etc.), and test results and/or mill certifications received.
 - o. Documentation of certification of workers (such as welders or shotcrete nozzlemen) and their required certification qualifications for the specific process conducted.
 - p. Signature of special inspector.
 - q. These are legal documents and shall be legible and written using proper grammar and complete sentences.
12. A final inspection report documenting and summarizing all required special inspections and correction of any discrepancies noted in the Daily Report(s) shall be submitted to the City of Shafter at Specialinspections@Shafter.com *after* all special inspections have been completed and *prior* to final inspection of the project. This report shall include all inspections performed by an individual special inspector for the project, or, if one company is providing more than one special inspector, the supervising special inspector or registered engineer may prepare one report which encompasses all special inspections performed by that company. See below for the information required on each Special Inspection Final Report.
13. Information required on the **Special Inspection Final Report**.
 - a. Company name for which the special inspector(s) is/are employed.
 - b. Name of special inspector(s) conducting inspection(s).
 - c. Name, signature, and registration number of the responsible engineer for the material testing lab results.
 - d. City of Shafter registration number(s).
 - e. Company address, phone and fax number, email address.
 - f. Inspector's cell phone number.

Initial_____

- g. Date of each inspection (or date range of inspections performed).
- h. Project address.
- i. Project building permit number.
- j. Name of contractor and/or subcontractor.
- k. Type of inspection(s).
- l. Clear statement that all of the work requiring a special inspection has been inspected.
- m. Documentation of any discrepancies noted in the daily report(s) and record of follow-up inspections performed to verify that work was brought into compliance with the plans, RFI's and all applicable codes and standards.
- n. Clear statement that the work inspected is in compliance with the approved plans, RFI's, and codes.
- o. These are legal documents and shall be legible and written using proper grammar and complete sentences

CONSTRUCTION DOCUMENTS AND CODES

- 14. Projects that require special inspection shall not be inspected prior to issuance of building permits. No construction may be conducted without issuance of building permits.
- 15. Special inspections shall not be conducted on projects without the original approved plans at the job site.
- 16. Special inspectors are required to have a copy of the current codes and a copy of the required references associated with the construction material(s) for which they are inspecting. Requirements for today's construction methods are complex and warrant the necessity for special inspectors to have at hand all relevant codes and references at time of inspection.
- 17. The special inspector shall always identify him/herself while on the job site where special inspections are being conducted, or will be conducted, by conspicuously displaying in a visible location of the upper body, the City-issued special inspection identification card.
- 18. Special inspectors shall notify Building & Safety prior to the start of special inspections for each new project. Where possible, 48-hours' notice shall be given. Notification may be given by any of the following means:
 - By phone at 661-746-5002
 - By Email to specialinspections@shafter.com
 - In person at the Building and Safety counter

If you have any questions regarding the City's policy for special inspections and registrations, please feel free to contact Building & Safety at (661) 746-5002, or in person at Shafter Hall, 336 Pacific Ave., Shafter, California.

SPECIAL INSPECTOR “ZERO TOLERANCE POLICY” FOR FAILURE IN THE PERFORMANCE OF DUTIES

This policy outlines the City’s zero tolerance for a special inspector who is, or will become, registered to perform special inspections as required by chapter 17 of the California Building Code within the City of Shafter.

The California Building Code, section 1704, requires that a special inspector demonstrate competency to perform stipulated inspections and requires that results of special inspections be properly reported in accordance with the provisions of section 1704.2.4. Additionally, building code appendix section 109.4 requires that such inspections be performed by qualified, reliable individuals subject to the approval of the City building official.

When a special inspector abuses the trust placed in him/her or fails to demonstrate competency in the performance of responsible duties, the City reserves the right to disqualify that individual from performing special inspections on projects within the City.

Examples of abuse of trust and failure to satisfy duties are:

1. Failure to report inspection results
2. Failure to inspect when required
3. Falsifying an inspection report or other City documents
4. Entering false information onto an inspection report
5. Misrepresenting the results of an inspection
6. Absence from construction locations where continuous inspections are required
7. Repeated violations of the City’s requirements and/or guidelines for special inspectors

The City will immediately revoke registration for special inspections when it is determined the individual has either failed to satisfy his/her duties while performing as a special inspector or has abused the City’s trust. Said determination shall be made by this office when such failure or abuse is confirmed by a fair and complete investigation by the City.

A special inspector shall immediately forfeit his/her City-issued identification card when the City revokes his/her registration.

Any construction conducted in association with the failed performance of a special inspector will require additional evaluation and proof of compliance to the satisfaction of the City building official.

Revocation of the City registration shall prohibit the special inspector from performing special inspections in all disciplines and will remain in effect for a minimum of two (2) years.

Where a second offense occurs, the special inspector will be banned permanently from conducting special inspections within the City of Shafter.

Initial _____

No new registrations for any discipline will be issued to a special inspector during his/her suspension period.

Following the suspension/revocation period, the special inspector may apply for registration by submitting a new application along with payment of a new registration fee.

A special inspector may appeal the City's findings and revocation, in writing to:

Building Official
City of Shafter
336 Pacific Avenue
Shafter, CA 93263

For any questions regarding the City's policy for special inspections and registrations, please feel free to contact Building and Safety at (661) 746-5002, or in person at Shafter City Hall, 336 Pacific Avenue Shafter, CA 93263.

By signing below, I acknowledge receipt of this policy, and acknowledge that I have read and understand its contents completely and agree to the terms specified herein.
